## Indices of Production, Employment and Wages in Construction

June 2017

---

### **Construction Production Index with positive variation on year-on-year terms**

The index of production in construction increased by 1,2% in the quarter ending in June 2017, in year-on-year terms (3 months moving average, working days and seasonally adjusted), up by 0.4 percentage points from the rate observed in May.

Employment and wages and salaries indices registered year-on-year change rate respectively of 2.1% and 1.6% (2.0% and 1.7% in the previous month).

#### **Presentation note**

In this press release, INE presents a new base year (2015=100) of Production, Employment and Wages and Salaries in Construction Indices, with backdate since January 2005. These new series replace the previous, based on 2010=100.

The results are based on a new sample of corporations and the weighting structure was updated to reflect 2015 data.
