

## International Trade by Enterprise Characteristics

2016

### **Concentration levels of the traded value in a limited number of enterprises decreased, both in exports and imports of goods**

The 100 biggest exporters and importers of goods concentrated around 40% of the value in each flow. Although they have remained significant, concentration levels of the traded value in a reduced number of enterprises decreased in 2016 comparing with the previous year, both in exports and imports of goods.

The majority of enterprises continued to trade goods with only one partner country, but enterprises with a wider variety of markets (at least 20 partner countries) concentrated the largest portion of the traded value: 41.6% in exports and 25.9% in imports.

This Press Release (only available in Portuguese) includes a specific analysis concerning the transactions of goods of the "gazelles", the young high growth enterprises, in the year 2016. Around 60% had transactions of goods with foreign partners and presented a higher diversification in destination markets than in the global of the exporters.

Statistics Portugal disseminates the main results of International Trade of Goods by Enterprise Characteristics, for the **reference year 2016**, corresponding to data on external trade of goods broken down by exporters and importers main characteristics.

The detailed analysis is only available in the Press release in Portuguese.

The following statistical data are available on the Portuguese Official Statistics Portal:

#### **International trade:**

- [Enterprises exporting goods \(No.\) by Employment size class and Economic activity \(NACE Rev. 2\); Annual](#)
- [Enterprises exporting goods \(€\) by Employment size class and Economic activity \(NACE Rev. 2\); Annual](#)
- [Enterprises exporting goods \(€\) by Concentration of enterprises and Economic activity \(NACE Rev. 2\); Annual](#)
- [Enterprises exporting goods \(No.\) by Size class number of partner countries and Economic activity \(NACE Rev. 2\); Annual](#)
- [Enterprises exporting goods \(€\) by Size class number of partner countries and Economic activity \(NACE Rev. 2\); Annual](#)
- [Enterprises exporting goods \(€\) by Type of good, product by activity \(CPA 2008\) and Economic activity \(NACE Rev. 2\); Annual](#)
- [Enterprises exporting goods \(No.\) by Partner country and Economic activity \(NACE Rev. 2\); Annual](#)
