

Industrial Production Statistics 2016

Value of Industrial Production increased by 1.3% in 2016

In 2016, total sales of products and services in the manufacturing industry (divisions 10 to 33, 35 and 38 of CAE Rev.3) amounted EUR 78.3 billion, an increase of 1.3% in nominal terms, compared to the previous year (+1.6% in 2015). The activities that recorded the most significant positive contributions to this growth were Food industries, Manufacture of machinery and equipment and Manufacture of computer equipment, communication equipment, electronic and optical products with 0.4 pp each. These activities showed positive changes in relation to the previous year, 2.8%, 12.4% and 15.4%, respectively.

The activity that contributed most negatively to the evolution of total sales of products and services in 2016 was the Manufacture of refined petroleum products (-1.1 p.p.), which registered a new contraction (-11.9% in 2016, after a decrease of 11.7% in 2015).

The publication "Industrial Production Statistics 2016", published today, disseminates the main statistical data on the Portuguese industrial production in 2016, obtained from the Annual Survey on Industrial Production (Prodcum Survey).

Complementing the information of this publication, a set of tables with data on 2016's industrial production, is made available on the portal of official statistics - www.ine.pt.

Methodological note:

The Annual Survey on Industrial Production (Prodcum survey), transposes, in full, the European methodology for industrial production statistics, from the Council's regulation 3924/91, of 19.12.1992 (PRODCOM Regulation) and the Commission's regulation 912/2004, of 29.04.2004, in respect to the coverage of industrial production, inquired variables and types of production.

These regulation's methodology was adapted to the Portuguese industrial reality, by breaking down the EU list of products and adopting national sub-positions, considered to be indispensable for the adequate knowledge of the national industrial production.

Additional notes on the methodology used can be found on the publication "Industrial Production Statistics 2016".

Conventional signs, units and acronyms:

Conventional signs

//	Non available data
----	--------------------

Kg	Kilogram
10 ³ kWh	Thousand Kilowatt
Nº	Number
Pa	Pair

NACE Rev.2	European Classification of Economic Activities, second revision
Div.	Division

Units

Kg 90% std	Kilogram of substance 90% dry
l	Litre
%	Percentage
p.p.	Percentage points
